6 September 2019

Dear Parents/Carers

CONCERT PARKING

Due to the high number of ticket sales we have made for the *Grose View Concert* matinee and evening sessions, we are anticipating a large volume of traffic movement throughout the day and ask that you please consider the following options:

- **Car-pooling** – This will help us to reduce the number of cars on the road, free-up limited parking spaces and allow for quicker and easier arrival and departure times.
- **45° reverse angle parking** - where appropriate. There are several sections of road/nature strip that allow for this type of parking. This will help to reduce the distance families have to walk to and from the school, particularly with poor lighting and uneven surfaces at night time.
- **Bring a torch** - The roads and footpaths around our school are very dark at night and it can be difficult to navigate a safe and clear passage.
- **Be mindful of neighbours** - Please check carefully when parking that you have not blocked a driveway or gate. Also please be considerate of noise when leaving during the evening session.
- **No parking in school grounds** - To ensure the safety of our students there will be no unauthorised parking or movement of vehicles within the school grounds.
- **40 km/hour.** Although the concert sessions fall outside of the 40km/hour school zone times, we ask that you please still adhere to this speed due to the large volume of pedestrian movement.

Thank you for your support of this event and we trust you have a “night to remember”.

Yours sincerely

Mr Damien Feneley
Principal
