T:\Office\Correspondence\Letters To Parents\2020-11-04 Drinking Water Outage.Doc

5 November 2020

**IMPORTANT
INFORMATION**

Dear Parents/Carers

DRINKING WATER OUTAGE

Please be advised that there is a planned drinking water outage on **Monday 9 November 2020** while new pump equipment is installed.

There will be **no potable drinking water available from taps** during this process. A limited supply of bottled water will be available in the case of emergency.

Please ensure you and/or your child packs a full drink bottle in their school bag on that day.

The supply of non-potable water for flushing toilets will not be affected.

We apologise for any inconvenience but appreciate your understanding that the installation is a necessary upgrade for our school.

Yours sincerely

Mr Damien Feneley
Principal
