Dear Parents/Carers

IDENTIFIED COVID-19 CASE AT SYDNEY WEST SWIMMING CARNIVAL

Grose View Public School has been advised that a student who competed at the carnival yesterday has recently tested positive to COVID-19.

Staff and students who attended the carnival may have had contact with this student who was infectious with COVID-19.

While testing and isolation is no longer mandatory for exposures in school settings, NSW Health has provided advice on testing and isolation recommendations for our school communities following exposure to COVID-19 that should be considered when making decisions for your child and family if this situation arises.

You are reminded that staff and students cannot attend school if they are showing any symptoms of COVID-19. These include fever, cough, sore throat, shortness of breath, runny nose, loss of smell/taste, muscle/joint pains, diarrhoea, nausea/vomiting, extreme tiredness, unexplained chest pain or conjunctivitis (eye infection).

If symptoms occur at any time, your child should not attend school and should undertake a rapid antigen test. If a rapid antigen test is positive your child should isolate as someone who has tested positive to COVID-19. If you cannot access a rapid antigen test, you can attend a PCR (nose and throat swab) testing clinic.

Advice and further resources are available on the NSW Health website including COVID-19 guidelines and fact sheets for people who tested positive or were exposed to COVID-19. Additional resources are also available on the NSW Government website.

The safety and wellbeing of our staff and students across NSW are paramount at all times. As such, we will continue to ensure that all necessary health advice is closely followed.

Thank you for your support.

Yours sincerely

Matt Carter
Principal
